Communications Director

Whereas this organization recognizes the important role a high-quality educational system plays in achieving and maintaining a vibrant community with strong prospects for continued growth and development; and

Whereas, State Fair Community College provides essential education, job training and workforce preparation for students of all ages to help them learn new skills and obtain well-paying jobs in high-demand technical careers; and

Whereas, a highly skilled, adaptive workforce is vital in supporting local and regional employers and retaining a vibrant generation of employees for thriving communities, and SFCC is committed to training employees to meet area workforce demands of current and emerging industries; and

Whereas, the State Fair Community College Board of Trustees resolves to continue to construct and equip the college with facilities and programs that will increase educational opportunities for all area students; and

Whereas, workforce preparedness and technical education must adapt as business and industry change, and SFCC needs to construct a technical education facility to provide students with up-to-date equipment and labs and expanded access to technical education programs; and

Whereas, State Fair Community College has worked diligently to gather stakeholder and community input on priorities in the creation of a comprehensive Campus Master Plan that identifies a technical education facility as the highest priority,

Now, therefore, be it resolved that Sedalia School District #200 expresses its support of State Fair Community College's Building Strong Futures initiative and its work to improve technical education programs in the communities it serves.

**Accredited with
"Distinction in
Performance
2011-2012
2012-2013"**

Sedalia #200 is an equal
opportunity and affirmative
action employer
