

Register for Classes

Login into mySTAR and click on the Student tab.

Click on Add or Drop Classes in the Registration Tools channel to get started.

Select the current term for registration and submit.

Enter the Course Reference Number (CRN) of the course you want or search for the classes by clicking the Class Search button (see tips below). Once you find the course you need, click Register or Add to Worksheet and search again.

A screenshot of the "Add Classes Worksheet" form. It features a header "Add Classes Worksheet" and a section labeled "CRNs" with eight empty input boxes. Below the input boxes are three buttons: "Submit Changes", "Class Search", and "Reset".

Common registration errors with the explanations are presented at the top of the screen. To view prerequisites for a course, click on the course title or "View catalog entry" from the class search.

Be sure to **Submit Changes** to add to your schedule.

Course Search Tips:

You must always select at least one subject.

To select multiple subjects, hold down the Ctrl key while clicking your selections.

To select all subjects, click on the first subject, scroll to the bottom of the list, hold down the Shift and Ctrl keys, and then click the last subject.

You can narrow your search by selecting additional criteria.

Campus default is 'All' but if you want to make sure you only get courses taught on a certain campus like Main/Sedalia, select this from the list.

When selecting days the course meets, be sure to select the box in front of the day(s) desired. We do have classes that only meet on Monday/Wednesday so leave Friday unchecked to view these courses.

If you use the Attribute to narrow your selection, select all subjects to get all courses meeting that attribute.
