

State Fair Community College

Radiologic Technology Associate of Applied Science Degree Program Information

State Fair Community College does not discriminate based on race, color, national origin, sex, disability, religion, sexual orientation, veteran status, or age in its programs and activities or in employment. The following persons have been designated to handle inquiries regarding the nondiscrimination policy: Director of Human Resources, Hopkins Student Services Center, (660) 596-7484, or Dean of Student and Academic Support Services, Hopkins Student Services Center, (660) 596-7393. The Hopkins Center is located on SFCC's Sedalia campus at 3201 W. 16th St. Sedalia, MO 65301. Inquires also may be directed to the U.S Department of Education, Office of Civil Rights at OCR.KansasCity@ed.gov.

Interested persons may obtain information as to the existence and location of services, activities and facilities at State Fair Community College that are accessible to and usable by persons with disabilities by contacting the Access office, Yeater Learning Center, Room 159, SFCC, 3201 W. 16th Street, Sedalia, MO 65301, (660) 530-5832.

RADIOLOGIC TECHNOLOGY PROGRAM ADMISSION PROCESS

Students are eligible to submit the program application packet when all prerequisite courses are complete or will be complete by the end of the spring semester of the year in which they are applying, meet the Essential Qualifications for the Radiologic Technology program, have a cumulative college GPA of 2.5 or greater on a 4.0 scale and a 2.75 on all prerequisites and general education requirements (a minimum of B or greater for BIO 207, BIO 208, and math prerequisite courses, and a minimum of C or better for remaining prerequisites and required general education courses). GPA is checked at the end of the spring semester of the school year in which the student is applying. **A new application packet must be submitted each year an applicant chooses to apply.**

Prior to applying for admission to the Radiology Technology program, students are **strongly encouraged** to contact the program's Student Success Navigator, Dana Goosen, to help plan courses, clarify program requirements, and review students' academic history. To schedule an appointment, call (660) 596-7149 or email dgoosen@sfccmo.edu.

In order to be considered for admission to the Radiologic Technology program, applicants must have the following steps completed by March 1st of the year they wish to enter the program. **(If currently only attending SFCC, skip step 1).**

1. Admission to State Fair Community College (SFCC)

Submit an online SFCC Application for Admission at www.sfccmo.edu/admissions and meet all requirements for admission to SFCC. Students must be **FULLY** admitted to SFCC prior to the March 1st deadline.

Students must submit official college transcripts from all colleges where credit was earned or attempted, including dual credit earned in high school.

NOTE: Students who are completing prerequisites at colleges other than SFCC must request an official transcript to SFCC as soon as grades are posted after the end of the spring semester of the year in which the student is applying. Students who are currently enrolled in prerequisites at colleges other than SFCC during the spring semester of which they are applying should provide unofficial transcripts with the Radiology Application. It is the student's responsibility to verify receipt of transcripts.

2. Pre-Entrance Program Exam

Applicants must take a pre-entrance program exam called the ATI TEAS (Test of Essential Academic Skills) **AH (Allied Health)** exam prior to the application deadline of March 1st and earn a competitive score. Select **ATI AH TEAS** at testing center. Students are allowed to take this exam unlimited times. If a student chooses to take the exam again, the student must wait 45 calendar days between testing dates. Student scores are valid for three application years; program application must be received before test results expire. SFCC administers the test on several campuses. For additional information on registration and cost, please visit the SFCC Testing Center website <https://www.sfccmo.edu/offices-services/testing-services/tests/ati-teas/>. If the test is completed at a testing center other than SFCC, the student must request an official transcript from ATI. Official transcripts can be purchased from the ATI online store at www.atitesting.com/ati_store/. **Unofficial ATI TEAS results taken from a testing center besides SFCC will not be accepted.**

The following links may prove helpful on the test:

<https://www.mometrix.com/academy/teas-practice-test/>

<http://www.mometrix.com/academy/teas-test/>

<https://uniontestprep.com/teas>

3. *Application for Admission Form*

Complete the **Application for Admission Form** available at <https://www.sfccmo.edu/academics-programs/areas-of-study/radiologic-technology/>. SFCC students may view their unofficial transcripts as a reference of their academic history in mySTAR>Student tab>Academic Profile.

4. *Applicant Observation Form(s)*

Students considering a career in the radiologic sciences can make a better-informed career decision if their choice is based on some personal experiences or observations. Complete a **minimum of 8 hours** with a Registered Radiologic Technologist in one or more clinical sites of your choosing. Review and complete the **Applicant Observation Form** in the application packet. You may make copies of the form. The radiologic technologist must **complete, sign, and seal the form in an envelope with their signature on the seal** to verify your observation hours and maintain confidentiality. Envelopes with broken seals and/or missing signatures will not be accepted. Applicants should begin this process at least 3 months before the application deadline, as some facilities will not be able to accommodate requests on a short time frame.

Applicants must call and **make an appointment** with the radiology manager and/or human resources department regarding their observation. Many hospitals have requirements for students to complete prior to observation time; it is the student's responsibility to meet expected requirements. Ask the facility for the expected dress code while observing (professional dress or medical scrubs). No pierced jewelry shall be worn with the exception of one earring per earlobe. Overall appearance should be clean and neat. A professional appearance inspires confidence in the patient.

It is recommended that students observe more than 8 hours and in more than one clinical setting. If the diagnostic imaging department is not busy on the day of the observation, the applicant is strongly encouraged to schedule an additional observation. The applicant is responsible for documenting all additional observation hours. A separate form should be used for each clinical site.

5. *Essay*

Submit a 2 page typed **essay** (double spaced, 12-point font, Times New Roman, 1-inch margins). The essay should include, but is not limited to, the following: motivation for pursuing a career in radiologic technology, career/professional goals, commitment to completing the program and a summary of your observation experience (including specific examples of procedures and equipment observed). The essay should also utilize correct grammar, punctuation and spelling.

The essay is an important component of the application process and many of the program classes include written assignments; therefore, strong writing and communication skills are important. Communication is extremely important for healthcare professionals because they must be able to communicate with patients as well as other members of their team such as technologists, radiologists, and nurses.

Applicants are encouraged to utilize the Academic Success Center in the Yeater building, room 150 on the Sedalia campus for free English/writing tutoring. Students not able to come to the Sedalia campus to visit the English and writing tutors may send their papers to the tutors via email. English and writing tutors change each semester; view the most current writing tutors and their emails in mySTAR > Campus Resources tab > Academic Success Center. The tutors may not be able to help with your radiology related wording but they would be able to help with writing mechanics, such as critical thinking, organization, and professionalism, as well as sentence structure, grammar and spelling.

6. Application Submission

Submit the required items (#3-5 above) in one large envelope to the Radiology Department prior to the application deadline. Be sure to follow instructions on all forms. All application materials **must be received and articulated** in the Radiology Department by 3:00 pm on March 1st or the first business day of March.

Late application materials will NOT be accepted. After deadline, all complete applications will be evaluated. **All materials submitted are considered privileged and are not available for students to view. All incomplete packets will be considered ineligible. Any missing signatures will disqualify packets.**

Contact the following program personnel if you have questions about the application or admissions process:

April Young, Program Director
(660) 596-7403 ayoung5@sfccmo.edu

Dana Goosen, Student Success Navigator
(660) 596-7149 dgoosen@sfccmo.edu

Program Prerequisites

All prerequisite courses must be completed by the end of the spring semester in which the student is applying. Additional prerequisite course work may be required based on placement exams. **Students who are completing prerequisites at colleges other than SFCC must request an official transcript to SFCC as soon as grades are posted after the end of the spring semester of the year in which the student is applying. Students who are currently enrolled in prerequisites at colleges other than SFCC during the spring semester of which they are applying should provide unofficial transcripts with the Radiology Application. It is the student's responsibility to verify receipt of transcripts.**

Prerequisites	Credit Hours	Grade Requirement
BIO 207 Human Anatomy with Lab	4 or 5	B or higher
BIO 208 Human Physiology with Lab	4 or 5	B or higher
MATH 112 Intermediate Algebra or higher The following mathematics courses will be accepted: MATH 110, or MATH 112, or Higher Math	3	B or higher
ENGL 101 English Composition I (or) ENGL 102 English Composition II	3	C or higher
HEOC 120 Medical Terminology	3	C or higher

*****Must have a cumulative GPA of 2.75 or higher in all prerequisites and required general education courses.**

*****Must have an overall cumulative GPA of 2.5 or higher for all college coursework.**

NOTE: If a student has taken an Anatomy and Physiology I (A/P) (4 credit hours) or Anatomy and Physiology II course (A/P) (4 credit hours) from an accredited higher education institution, this does not satisfy the requirements of either Anatomy or Physiology courses that are required by this program. If a student's transcript indicates BOTH A/P I AND A/P II courses with a "B" or higher, this will satisfy the Anatomy and Physiology requirements of this program. If a student takes A/P I and A/P II and one of the grades for these are lower than a "B", the student must repeat that course or take SFCC's separate Anatomy and Physiology courses. All required (including prerequisites for the program) science courses must meet the requirement of having been completed within the last 10 years at the time of application to the State Fair Community College Radiologic Technology program.

Required General Education Courses

In addition to completing the prerequisite courses, students should make every effort to complete the following required general education courses **prior** to starting the program. These courses can be taken in conjunction the program.

General Education Courses	Credit Hours	Grade Requirement
HIST 101 U.S. History Before 1877, (or) HIST 102 U.S. History Since 1877, (or) POLS 101 American/National Government	3	C or higher
COMM 101 Public Speaking	3	C or higher

Students with Disabilities

Students with documented disabilities who are applying for admission to State Fair Community College's Radiologic Technology Program are welcome according to guidelines of the Americans with Disabilities Act (ADA) of 1990. Reasonable accommodations will be made for students with documented disabilities, who have the abilities to assume the role and meet expected educational outcomes as required for all students seeking the Associate of Applied Science in Radiologic Technology degree. These abilities are outlined in the Essential Qualifications for the Radiologic Technology Program.

Essential Qualifications for the Radiologic Technology Program

The following essential qualifications address the motor, behavioral, emotional, communication and professional conduct essential to the Associate of Applied Science Degree in Radiologic Technology at State Fair Community College. Students must meet these essential qualifications in order to be admitted and retained in the program. Students with documented disabilities who wish to request reasonable accommodations under the American with Disabilities Act must follow the college's procedure for requesting accommodations. The college reserves the right to reject requests for accommodations that would fundamentally alter the nature of an educational program, lower the academic standards, cause an undue hardship on the college, or endanger the health or safety of a student with a disability, other students, or any other member of the college community.

State Fair Community College Associate of Applied Science Degree in Radiologic Technology certifies that the holder of that degree has been educated to competently enter practice as a radiologic technologist, having demonstrated competency in cognitive, affective, and psychomotor domains. Both professional coursework and general education requirements contribute to the development and completion of these competencies. To be eligible to sit for the American Registry of Radiologic Technologists' certifying examination, all components of the degree program must be completed. In order to successfully complete these competencies and to ensure the health and safety of patients, fellow candidates, faculty, and other health care providers, the abilities listed on the following pages are required. These requirements are consistent with the employment requirements of our clinical education sites. Each person who completes a letter of recommendation form will also be evaluating the applicant's ability to meet the Essential Qualifications, and one or more concerns from the person completing the recommendation form may result in the student not being accepted to the program.

Motor Skills

With or without reasonable accommodations, a candidate for this program must be able to have sufficient motor function so that they are able to execute movements required to provide general care and examination to patients in all diagnostic imaging settings. In general, this requires candidates to be able to regularly lift at least

25-100 pounds (in assisting in patient transfers); stand/walk 6-7 hours per 8 hour shift with prolonged standing; bend, stoop and twist repetitively, lasting several minutes each time, carry up to 20 pounds, move carts weighing 200 lbs., and reach a height of 6 feet to activate emergency call buttons and reach equipment. Fine and gross motor movement of the upper extremities is required in all of the above.

Sensory

With or without reasonable accommodations, a candidate for this program must be able to observe a patient accurately, align body parts to be imaged with the x-ray beam and imaging receptor, and observe and appreciate both verbal and non-verbal communications when performing diagnostic imaging studies. Candidates should have normal functional vision with corrective eyewear. Candidates should have auditory ability sufficient for physical monitoring and assessment of client health needs, which includes hearing faint body sounds, faint voices, hearing situations when not able to see lips, and hearing auditory alarms with or without auxiliary aids.

Behavioral/Emotional

With or without reasonable accommodations, a candidate for this program must have the emotional stability in order to approach situations and apply critical thinking skills in a systematic and professional manner. They must be capable of exercising good judgment and promptly completing the responsibilities involved in the examination and care of patients. Candidates must communicate effectively and sensitively with other students, faculty, staff, patients, family, and other professionals. Candidates must be able to deal effectively with the stresses encountered in nearly 40 hours of class work per week in addition to family and life demands. They must express their ideas and feelings clearly and demonstrate a willingness and ability to give and receive feedback.

Communication

With or without reasonable accommodations, a candidate for this program must be able to effectively explain diagnostic imaging procedures to both the patient and family members, utilize questioning techniques to obtain accurate clinical histories, and give directions during the study. Candidates must be able to communicate orally and in writing with individuals of all backgrounds and educational levels.

Cognitive

With or without reasonable accommodations, a candidate for this program must be able to measure, calculate, reason, analyze, integrate and synthesize in the context of undergraduate radiologic technology education. Candidates must be able to quickly read and comprehend extensive written material. They must also be able to recall, evaluate, and apply information and engage in critical thinking in the classroom and clinical setting.

Professional Conduct

Candidates must possess the ability to reason morally and practice radiologic technology in an ethical manner. Candidates must be willing to learn and abide by professional practice standards. They must possess the attributes that include compassion, empathy, integrity, honesty, responsibility and tolerance. Candidates must be able to engage in examination and patient care delivery in all settings and be able to deliver care to all patient populations including but not limited to children, adolescents, adults, developmentally disabled persons, medically compromised patients and vulnerable adults. Candidates who are selected for the program must pass a criminal background check as required by our clinical education sites.

While these abilities are required to successfully complete the competencies leading to the Associate of Applied Science in Radiologic Technology degree, successful completion of the requirements for a degree does not guarantee eligibility to take the American Registry of Radiologic Technologists' Certifying exam. Eligibility for examination requires that the candidate be of good moral character. Conviction of a misdemeanor or felony may indicate a lack of good moral character for ARRT purposes. The ARRT Ethics Committee conducts a thorough

review of all convictions. Documentation required for a review includes written personal explanation of the activity and court records to verify the conviction, sentence, and completion of the sentence.

It is important that the candidate understand that there is a moral character requirement for eligibility for examination. Anything less than complete and total disclosure of any and all convictions will be considered as having provided false or misleading information to the ARRT. This is grounds for permanent denial of eligibility for certification. The ARRT may conduct criminal background searches whenever appropriate. If you have concerns regarding your eligibility to sit for the ARRT examinations, please contact the ARRT at:

The American Registry of Radiologic Technologists
1255 Northland Drive
St. Paul, MN 55120
(651) 687-0048
www.arrt.org

RADIOLOGIC TECHNOLOGY PROGRAM INFORMATION

The SFCC Radiologic Technology Program is an intense, 21-month course of study leading to an Associate of Applied Science degree in Radiologic Technology. Through classroom theory, laboratory practice, and clinical application students learn to safely use radiation in the evaluation of trauma and disease. Students are introduced to the vast opportunities in diagnostic imaging, and achieve entry-level competency in the completion of x-ray procedures.

Accreditation

State Fair Community College has been affiliated with the North Central Association (NCA) of Colleges and Schools since it was founded. Correspondence status was granted in 1968. Full accreditation was granted in 1976, 1981, 1988, and 1999. SFCC became accredited through admission to the NCA Higher Learning Commission's Academic Quality Improvement Program (AQIP) in August 2005 and continues to be accredited on an annual basis. The Higher Learning Commission can be contacted through the following:

HLC
The Higher Learning Commission
230 South LaSalle Street, Suite 7-500
Chicago, Illinois 60604-1411
Phone: 800.621.7440 or 312.263.0456 Fax: 312.263.7462
HLC website: <http://ncahlc.org/> HLC Email: info@hlcommission.org

Complaints or concerns about an Institution affiliated with the Commission can be sent to:
complaints@hlcommission.org

The program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). The JRCERT assures employers and prospective students that our program provides educational excellence and patient and professional safety. Many states that require licensure of radiologic technologists will only recognize graduates of JRCERT accredited programs. JRCERT accreditation assures graduates that they will be eligible for licensure or certification in all 50 states.

It is the faculty's desire to create the highest quality radiologic technology program available. If you have concerns with program policies or practices, please bring them to the attention of the Program Director or the Clinical Coordinator. Issues may be easily resolved once we are aware of them.

Concerns with the program's compliance with JRCERT policies are subject to the Grievance and Appellate Process. Grievances may be initiated by students, employees of SFCC, or other interested parties. For more information, refer to Regulation 2160 at: www.sfccmo.edu/about/policies-regulations

If the complainant believes the program still to be in violation of JRCERT policies, the JRCERT direct contact at the following:

Joint Review Committee on Education in Radiologic Technology
20 N. Wacker Drive
Suite 2850
Chicago, IL 60606-3182
(312) 704-5300

Program Mission

The mission of the State Fair Community College Radiologic Technology Program defines the primary purpose of our existence:

The Radiologic Technology Program at State Fair Community College is dedicated to serving the rural communities of western Missouri through the preparation of highly competent, registry-eligible medical imaging professionals.

Program Vision

The Radiologic Technology program at State Fair Community College envisions a future in which learner-centered instruction is utilized to produce graduates who are not only technically competent, but are leaders in the field. We desire to set the standard in quality radiographic education, not merely follow the standards set by others. We want to positively impact our local communities, state and nation through leadership and service. The Vision Statement succinctly identifies the essential characteristics of the radiologic technology program's future. The Vision is used to determine what constitutes success of the SFCC Radiologic Technology program in achieving its mission. With this in mind, the following vision statement was developed for State Fair's Radiologic Technology program:

The SFCC Radiologic Technology program will be an exemplary radiologic technology program – focused on developing tomorrow's leaders, serving the community, and practicing continuous academic quality improvement.

Program Goals

Student Learning Goals:

Goal #1 - Clinical Competence: Students will be clinically competent.

Student Learning Outcomes:

- Students will apply radiation protection
- Students will demonstrate excellent positioning skills
- Students will apply excellent patient care skills

Goal #2 - Proficient Critical Thinking: Students will think critically.

Student Learning Outcomes:

- Students will perform non-routine procedures successfully
- Students will analyze radiographic images successfully

Goal #3 - Effective Communications: Students will communicate effectively.

Student Learning Outcomes:

- Students will communicate effectively with patients
- Students will communicate effectively with all clinical personnel

Goal #4 - Involved Professionalism: Students will demonstrate professionalism.

Student Learning Outcomes:

- Students will demonstrate professional behavior
- Students will follow and foster the ARRT's Code of Ethics

Graduate Learning Outcomes

Upon completion of the SFCC Radiologic Technology Program, the graduate will be able to:

- Apply knowledge of anatomy, physiology, imaging techniques and positioning procedures to accurately demonstrate human anatomy on a radiograph and other imaging receptors, making appropriate modifications as patient needs dictate.
- Exercise independent judgment and discretion in the technical performance and evaluation of examinations and procedures.
- Utilize a variety of medical imaging, image processing, and image archiving equipment in a variety of clinical settings, demonstrating safe limits of use, recognizing equipment malfunctions and reporting them to proper authority, and possessing knowledge of quality assurance activities.
- Utilize appropriate radiation protection techniques for patients and personnel.
- Provide basic patient care, safety, comfort and education and anticipate and recognize emergency patient conditions in order to initiate life-saving first aid/basic support.
- Exhibit professional and ethical behaviors, which are recognized by the standards, contained in the professional code of ethics and scope of practice as set by American Society of Radiologic Technologists and other nationally recognized professional organizations.
- Communicate professionally and competently with patients, family members, other health care personnel, and members of the general public.
- Pass the American Registry of Radiologic Technologists' examination in diagnostic radiography.

The following is information about some of the policies for the program.

Background Check (required)

Satisfactory background check. (Background check is completed after admission to program). Any applicant who has been convicted of felonies and/or misdemeanors must discuss this matter with the Radiology Program Director. This could affect your ability to take the ARRT Registry after graduating from the program.

Health Science Immunization Policy

Upon acceptance to State Fair Community College Health Science programs, students are required to provide proof of immunization against a variety of diseases. Proof includes evidence of vaccination on an official record, school records, or positive titer results. Students must submit proof of immunization using the Medical Document Manager through their CastleBranch account **IF** your program requires it. Students not meeting immunization requirements will be prohibited from participating in clinical education and therefore, will be dismissed from the program. Students should have received most of these immunizations during childhood, but some immunizations need to be more recent. These immunizations and tests may be obtained for a nominal fee at local county health departments.

The required immunizations include:

- Measles, Mumps & Rubella (MMR) Vaccine
 - Laboratory evidence of immunity
 - Laboratory confirmation of rubella, mumps or measles disease OR
 - Birth before 1957 does not require immunization
 - Evidence of NO measles immunity need two doses of MMR vaccine, with the second dose administered no earlier than 28 days after the first dose.
- Varicella (Chickenpox) Vaccine
 - Laboratory evidence of immunity OR
 - Document of vaccination with 2 doses of varicella vaccine
 - 2 vaccines at least 28 days apart
- Influenza (Seasonal Flu) Vaccine
 - Verification of annual flu vaccine (fall)
- Hepatitis B
 - Laboratory confirmation of Hepatitis B immunity OR
 - Series of 3 doses of Engerix B or Recombivax HB over a 6-month period OR
 - Series needs to be started prior to beginning program of study and the remainder can be completed after program entry
 - Series of 2 doses of Heplisav-B
 - 2 doses at least 4 weeks apart
- Diphtheria, Tetanus & Pertussis Vaccine
 - Documentation of having received a booster within the last 10 years
- Tuberculosis
 - If no TB test completed in last 24 months, must have 2 step Tuberculin Skin Test **within three months of the beginning of the program**
 - 2 tuberculin skin tests completed within 1-3 weeks of each other
 - Step 1 – Tuberculin Skin Test and result read within 2-3 days
 - Step 2 - Tuberculin Skin Test 1-3 weeks after step 1 and result read within 2-3 days.
 - If TB test has been in last 24 months, one step TB test is required within 3 months of beginning the program
 - TB test (1 step) is required annually
 - Positive TB skin test must have a documented negative chest x-ray from any time AND an annual negative TB questionnaire.

(Revised February 2019)

Pregnancy Policy

Students should be aware that there is a possibility of radiation injury to an unborn fetus with the greatest risk occurring during the first trimester. A female student has the option of whether or not she wants to notify program officials of her pregnancy. If the woman chooses to voluntarily inform officials of her pregnancy, it must be in writing and indicate the expected date of delivery. A student who notifies the program of her pregnancy has the following options:

Option #1: The student may continue the educational program without modification or interruption.

Option #2: The student may continue in the program with the following restrictions being imposed on clinical rotations. The pregnant student will have limited exposure to the following:

1. Fluoroscopic procedures
2. Portable procedures
3. Surgical procedures
4. Procedures involving radium-implant patients
5. Nuclear Medicine procedures

Substitute clinical rotations will not be provided. All clinical rotations missed by the student will be made up at the end of the program. This will result in a delay in the completion of the program. In addition to the clinical restrictions, the pregnant student will be expected to complete all of the standard clinical requirements.

Option #3: A pregnant student may request a leave of absence not to exceed one year and either withdraw from or attempt to complete the courses she is currently enrolled in. There would be a place reserved for the student in the next accepted class, and it would not be necessary to submit another application for admission to the program.

Option #4: A pregnant student may request to withdraw from the program for an indefinite period of time. If she wished to be reinstated, she must submit an application and compete for readmission to the program. Any previous coursework taken would be reevaluated at the time of readmission to assure that competency has been maintained.

A female student may withdraw declaration of pregnancy at any time. If the student chooses to voluntarily withdraw the declaration of pregnancy, she must inform program officials of her pregnancy declaration withdrawal in writing.

Clinical Education

Clinical Education plays a very significant role in your development as a professional Radiologic Technologist. Participation in clinical rotations is not optional. Your clinical rotations will occur at a wide variety of locations and may include some evening and weekend rotations. Unlike traditional college courses, clinical rotations will usually consist of 8-hour shifts.

Some questions you should ask yourself include:

- Do I have dependable transportation?
- Will I be able to afford gas to travel to and from clinicals (keep in mind the fluctuating gas prices)?
- Will my employer be flexible with my clinical education schedule?
- How reliable are my childcare arrangements?
- What alternatives do I have if my child is too sick for daycare?

There may be times when you will miss a clinical rotation because of illness, but if you miss too much time you may be required to make that time up, repeat the course, or you may be released from the program.

Due to the small size of the facility, or the presence of students from other Radiologic Technology programs, there will be only one student at a time at many of these facilities. The technologists and staff at the facilities will make every effort to welcome you and make you feel comfortable. However, you should realize that congeniality is a two-way street. The friendlier and more outgoing you are the warmer reception you will receive in return.

Clinical education rotations will occur at the following sites. Other sites may be added to give additional depth to your education.

Clinical Education Setting	Location	Miles from Campus	Time to drive from Campus
Bothwell Regional Health Center	Sedalia	1	in town
Western Missouri Medical Center	Warrensburg	29	35 minutes
Fitzgibbon Hospital	Marshall	33	35 minutes
Cooper County Memorial Hospital	Boonville	47	1 hour
Golden Valley Memorial Hospital	Clinton	50	1 hour 5 minutes
Carroll County Memorial Hospital	Carrollton	62	1 hour 5 minutes
Lafayette Regional Health Center	Lexington	68	1 hour 20 minutes
Harry S. Truman VA Hospital	Columbia	70	1 hour 25 minutes
Ellett Memorial Hospital	Appleton City	76	2 hours
Bates County Memorial Hospital	Butler	81	2 hours
Pershing Memorial Hospital	Brookfield	83	2 hours 20 minutes
Moberly Regional Medical Center	Moberly	102	2 hours
SSM Health – Audrain Medical Center	Mexico	105	2 hours
Samaritan Hospital	Macon	126	2 hours 10 minutes
Hermann Area District Hospital	Hermann	130	2 hours 15 minutes

Radiologic Technology Curriculum

<i>Year 1</i>					
Prerequisites	Cr. Hr.	Fall	Cr. Hr.	Spring	Cr. Hr.
BIO 207*	4	RAD 137: Radiation Protection (16 weeks)	3	RAD 106: Clinical Ed. I (16 weeks)	3
BIO 208*	4	RAD 120: Radiographic Procedures I (1 st 8 weeks)	3	RAD 124: Radiographic Procedures III (1 st 8 weeks)	3
MATH 112* (or higher)	3	RAD 122: Radiographic Procedures II (2 nd 8 weeks)	3	RAD 142: Trauma & Advanced Imaging (2 nd 8 weeks)	3
ENGL 101** (or) ENGL 102**	3	RAD 128: Intro Radiological Sciences and Patient Care (16 weeks)	3	RAD 134: Rad. Exposures & Quality Control (1 st 8 weeks)	3
HEOC 120**	3			RAD 146: Imaging Equipment (2 nd 8 weeks)	3
<i>Total Credit Hours</i>	<i>17</i>	<i>Total Credit Hours</i>	<i>12</i>	<i>Total Credit Hours</i>	<i>15</i>

Year 2

Summer	Cr. Hr.	Fall	Cr. Hr.	Spring	Cr. Hr.
RAD 109: Clinical Ed. II (1 st 4 weeks)	2	RAD 113: Clinical Ed. IV (16 weeks)	4	RAD 115: Clinical Ed. V (16 weeks)	4
