

# Medical Laboratory Technician

*This program is offered hybrid for SFCC students with online coursework and in-person lab and practicum.*

## Why Medical Laboratory Technician?

Are you meticulous about details? Do you thrive in a routine and task-oriented environment? Curious about tissue, cells and medical testing? Then you are well suited for a medical lab technician career!

The Missouri Health Professions Consortium (MHPC) Medical Laboratory Technician (MLT) program at SFCC is coordinated through Moberly Area Community College (MACC). The program includes virtual classroom instruction, laboratory hands-on skills instruction on scheduled dates throughout the semester at MACC, and an off-campus clinical rotation component.

Upon graduation, you are eligible to take the American Society for Clinical Pathology certification exam. Graduates who pass are recognized nationally as Medical Laboratory Technicians and are ready for a career in a variety of health care settings.

*It's about community!*

# Medical Laboratory Technician

Admission requires completing an SFCC application and an MLT application. Admission to SFCC does not guarantee acceptance into the MLT program, which is competitive and limited. An application packet is available at [www.sfccmo.edu/medical-lab-technician](http://www.sfccmo.edu/medical-lab-technician).

The MHPC Medical Laboratory Technician program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences.

## Certificate and Degree Options

- " Associate of Applied Science in Medical Laboratory Technician
- >> 60 credit hours
