

STATE FAIR COMMUNITY COLLEGE
Radiologic Technology Program
Applicant Observation Reference Form

To the Applicant

Observe a minimum of eight (8) hours with a Registered Radiologic Technologist (RT) in one or more clinical settings. Complete the information below before arriving at your observation. Present this form to the observing technologist so they may reference your information while completing the electronic Observation Verification Form using the QR code on this page. Observation hours are valid for 12 months. If employed at the observation facility, a maximum of eight (8) hours at that site may be counted toward the requirement.

Student Name	Observation Date
Applicant Email	Total Hours Observed
Facility Name	City/State
Applicant Phone	Notes (optional)

To the Observing Registered Radiologic Technologist

Thank you for providing an observation experience for a prospective SFCC Radiologic Technology applicant. The applicant information above is provided for your reference. Please complete the official Observation Verification Form electronically.

Scan the QR Code below

The electronic form will request:

- Applicant name
- Observation date
- Total hours observed
- Facility name
- Types of examinations observed
- Professionalism evaluation
- Additional comments
- Electronic verification/signature

Important: Observation hours are not considered complete until the electronic verification form has been submitted. Applicants will receive confirmation of submission via email and Observers will have the option to have a copy sent to them. State Fair Community College reserves the right to verify any submission of observation hours with the facility indicated.

Confidential: Your responses will be reviewed only by Radiologic Technology program personnel for admissions purposes. Applicants will not see individual evaluations or comments.
