

State Fair Community College
SFCC RFQ 26 -013: Agriculture Innovation Center
Additional Responses to Questions Received as of May 4,2026

1. Section I states “firms must agree to submit a detailed scope and associated fee...”
However, Section V, Part B does indicate that this is a part of the submission/format. Is the College expecting firms include detailed scope/fee with the initial Statement of Qualifications, or simply that they will need to do so should they be selected for the project?

[This has been removed from the RFQ](#)

2. Can you confirm that the schedule for design through bidding is approximately 4 months (June 1, 2026, to Fall 2026)?

[That is accurate. We understand circumstances may cause this to change, but our desire is to move quickly.](#)

3. This will be a design-bid-build procurement process?

[The plan is design-bid-build.](#)

4. Will the College use an AIA contract?

[Yes](#)

5. Can you further clarify Section V, Part B, Item 1c?

[This is a boilerplate we use to basically ensure that you include the full details of your company in the RFQ response. As I read it, there are parts of this we are not requesting in this RFQ such as sample contracts. Be sure your RFQ is complete once submitted. If your response is submitted on time, it will be considered as responsive.](#)

6. Does the College have stated sustainability goals/objectives?

[We do not.](#)
